Buckingham Fountain

Grant Park www.ChicagoParkDistrict.com

One of Chicago's most popular attractions, the fountain is one of the largest in the world. Located in Grant Park this centerpiece was built in 1927 to provide a monumental focal point while protecting the park's breathtaking lakefront views. The fountain is turned on from April 1st to November 1st each year. Every hour on the hour the fountain creates a major water display with 150 foot jets of water streaming into the air. At dusk, the display is accompanied by music and lights.

Evening at the Fountain
