Chicago Illuminating Company

19 East 21st Street www.ChicagoIlluminatingCompany.com

A warehouse / power plant built in 1891, this historical space has been preserved and renovated to house a 10,000 square foot event space. This now modern event space features stark design, lofty ceilings, floor to ceiling windows with illustrious mirrors, making it a hot spot for urban bashes. Exposed ceilings and illuminating mirrors in the front room transition into a back room with a soaring ceiling and prominent windows, framed with a modern light display on one wall and a stairwell to a balcony on the other.

Main Room

Space Availability

Main Room – accommodates 250 for a seated event or 750 for a reception. This venue is highly versatile lending itself to endless possibilities.
